Acorn Capital - Investment Update

"In April, the S&P ASX Small Ordinaries Index returned +1.8%, underperforming the broader ASX300 (+3.6%). The strongest industry sectors in the index were Industrials - Capital Goods (+5.1%), Materials - ex Resources (+4.3%), and Information Technology (+2.9%). The lagging sectors in the index were Energy (-3.1%), Health Care (-0.8%), and Industrials - ex Capital Goods (-0.1%).

The portfolio recorded a return of 0.74% for the month, underperforming the benchmark by 1.1%. City Chic Collective was down 30.8% as a result of tariff impact uncertainties on their USA operations which contribute about a quarter of company revenues. While the USA business faces some shorter-term uncertainties, the Australian and New Zealand business is growing strongly (17% in 2H FY25TD). QuickFee (-23.1%) after it announced a provision for a potential credit impairment in its USA business which negatively impacted full year EBITDA guidance. Meteoric Resources was up 62% after China put restrictions on sales of rare earths from China while Superloop rallied +18.5% as investors sought higher certainty earnings growth not impacted by tariff volatility."

ACQ Objective

The Objective is to create a diversified portfolio of listed microcap companies and then to invest opportunistically in unlisted entities that offer better relative value. The performance objective for ACQ is to outperform the S&P/ASX Small Ordinaries Accumulation Index over the medium to long term.

Dividend Intention

Acorn Capital Investment Fund Limited intends to pay annual dividends targeting at least 5% of closing post-tax NTA for each financial year, franked to the highest extent possible and without the Company incurring a liability.

Where the Company accumulates franking credits that the Board determines are in excess to its requirements it is the intent to distribute those excess credits by way of special dividends. This is subject to the Company having sufficient profit and cash flow to make such payments.

Investment Philosophy

The investment philosophy is based on a belief that there are pricing inefficiencies amongst emerging or microcap companies due to a lack of readily available external research conducted on such entities.

Acorn Capital believes that through a research driven investment process the pricing inefficiencies that exist in both listed microcaps and unlisted microcaps can be exploited to earn returns superior to those available in the broader market.

Unlisted microcap opportunities must be of better relative value on a risk-adjusted basis to displace existing listed portfolio investments in the corresponding sector.

Investment Strategy

- Research-driven stock selection
- Economic sector diversified
- Style agnostic
- Long term investor
- Create diversified portfolios to reduce volatility

Investment Manager profile

Acorn Capital was established in 1998 as a specialist investment manager in emerging Australian companies.

Acorn Capital distinguishes itself through its relatively large research and investment team with expertise across all industries as well as its provision of expansion capital to developing companies.

Through its strategies Acorn Capital can provide Investors with efficient off-index exposure to both public and private emerging companies.
